Agenda 11th – 14th May

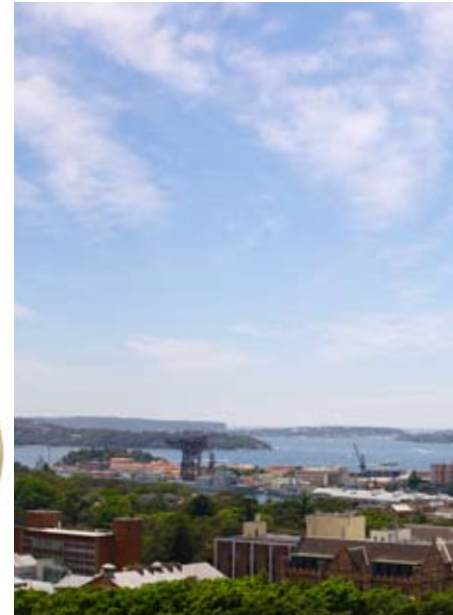

Tuesday May 11, 2010

2:00 pm - 5:00 pm	Pre Conference Registration will be available
6:00 pm	Meet in Foyer for Transportation to Sydney Opera House
6:30 pm - 7:15 pm	Pre dinner Drinks
7:15 pm - 11:00 pm	Welcome Gala Dinner at Sydney Opera House Including Awards and Entertainment

Wednesday May 12, 2010

8:00 am	Registration and Pre Conference Coffee & Tea
9:00 am	Opening Welcome - Lionel Finidori , Director Pacific Zone, Schneider Electric
9:30 am	Schneider Electric Australia Overview & Introduction of EcoStruxure™ Scott Wooldridge , Vice President, Industry Business, Schneider Electric, Australia
10:30 am	Break
11:00 am	Keynote Presentation - Dr Nikki Williams , CEO – NSW Minerals Council Climate change and the effects on the Mining Industry
12:00 pm	Energy Efficiency Rob Murray-Leach , CEO, Energy Efficiency Council
12:30 pm	Lunch
1:30 pm	Suzlon Energy Australia Pty Ltd Serel Ogten , Engineering Manager The green energy produced by this wind farm is enough to power approximately 54,000 Average Australian households per year. This presentation shows how Suzlon Energy were able to overcome technical and logistical challenges to construct what was one of Australia's largest wind farms.
2:00 pm	PlantStruxure™ Schneider Electric's new collaborative solution. Cyril Perducat , Sr. VP System Consistency and Innovation, Schneider Electric Christopher Crowe , VP SCADA Activity Industry Business, Schneider Electric
2:45 pm	Customer Presentation Suresh Sakar , JAA Project, Iluka Resources Limited Iluka's core business is the production and processing of mineral sands and zircon. This presentation shows how Iluka Resources have benefited from implementing a totally integrated solution.
3:15 pm	Break
3:45 pm	Customer Presentation Greg Kelemanis , Senior Systems Engineer, Electro 80 This presentation will discuss the process undertaken to successfully implement a Hot-Standby SIL-2 Safety PLC within a Chemicals Process plant.
4:15	Schneider Electric Technology Roadmap Stephen Flannigan , Product Director, SCADA Activity, Industry Business, Colette Munro , Snr VP, Manufacturing Execution Systems, Industry Business Simon O'Donnely , General Manager Marketing & Operations,
5:15 pm	Close for Day 1
5:30 pm	Close Free Night

Thursday May 13, 2010

8:00 am **Pre Conference Tea & Coffee**

	MMM	WWW	F&B
8:30 am	Customer Presentation Andrew Ramsay Rio Tinto Coal Australia Implementation of Ampla as an MES solution for RTCA mines and the realised benefits.	Customer Presentation Tim Mahony , Manager - Electrical Engineering Services B.E. (Elec), RPEQ Wide Bay Water Corporation. This presentation will discuss the challenges and approach to the design and construction of the \$36 million Nikenbah WWTP project which provides additional capacity to keep pace with Hervey Bay's high population growth	Industry Speaker Kate Carnell AO, Chief Executive Officer, Australian Food and Grocery Council An overview of the Food and Beverage Industry
9:00 am	Customer Presentation Scott Saunders , Ore Processing, Process Superintendent, BHP Billiton GEMCO A journey from not knowing what we didn't know to having information at our finger tips.	Customer Presentation TBA	Customer Presentation Graham Bryant , Energy Reduction & Compliance - Project Manager, Simplot Energy Efficiency- getting started on the journey and building the culture.
9:30 am	Customer Presentation Paul O'Kane , OneSteel Ampla has been a key tool in process control and continuous improvement at OneSteel Steelmaking Department Rooty Hill.	Customer Presentation Mark Mills , Manager Electrical & Mechanical Services, Hunter Water Corporation An overview of the Energy Efficiency Program which is driven by a need to reducing Energy Cost and a need to cap Energy use in line with Government and corporate sustainability targets	Customer Presentation Kellogg (Aust) Pty. Ltd. Ben Wentworth-Perry , Plant Electrical Specialist How Kellogg's were able to upgrade their legacy Modicon 984 PLC's to Quantum with 95% code conversion.
10:00 am	Break		
10:30 am	Customer Presentation Marthinus Van der Westhuizen , Specialist, Centralised Monitoring & Support, Rio Tinto Iron Ore. How a Change Control Management solution was implemented across Rio Tinto Iron Ore sites to protect, save, restore, discover and track changes using MDT Autosave.	Customer Presentation David Taylor , Control Systems Engineer Veolia Australia	Customer Presentation SPC Ardmona Lawrence Steward The evolution and progression of PLC Automation, SCADA control, power distribution, power monitoring and its impact and implementation across SPC Ardmona's sites.
11:00 am	Customer Presentation Gavin Macguire , Sunstate Cement & David Brookes , Optimate A modern real-time operations control centre with automated energy management load shedding system.	Customer Presentation Derek Harre GHD This presentation will review a large scale recycled water project control system execution.	Customer Presentation Andrew Stroud Reliability Manager, Schweppes This presentation will show how Schweppes has full visualisation of their plant using Ampla
11:30 am	Integrated Architecture Demonstration for MMM - Gary Samata , Schneider Electric	Integrated Architecture Demonstration for WWW Bruce Fikkers , Schneider Electric	Integrated Architecture Demonstration for F&B - Kien Mac , Schneider Electric
12:30 pm	Lunch		
1:30 pm	Customer presentation, Michael Dunn , Managing Director, Maxicant Marine Automation How the worlds leading racing yachts are powered by Schneider Electric Automation.		
2:00 pm	Meet in foyer on Castlereagh street for coach to Rushcutters Bay		
2:30 pm	Schneider Electric Yachting Regatta on Sydney Harbour		
7:00 pm	Casino themed final dinner at Sheraton on the Park Ballroom		

Friday May 14, 2009

08:00 am Pre Conference Tea & Coffee

Technology Speed Dating

Each session is duplicated after Morning Break

	MES	SCADA	Drives	Plant Controllers
8:30 am	Building Inventory and Product Tracking Solutions Priyanka Shivaram MES Activity Schneider Electric	V7.2 - Quality, Value and Timestamp David Sorkovsky SCADA Activity, Schneider Electric	Faulty Device Replacement Paul Stride Schneider Electric	Advanced industrial network configuration Juan Carrizales Schneider Electric
8:55 am	Change over			
9:00 am	Capturing and analysing energy waste in your plant Alex Meyer-Gleaves MES Activity Schneider Electric	Using metadata for CiCodeless Super Genies David Sorkovsky SCADA Activity, Schneider Electric	Drives and power quality Jarred Gibbs Schneider Electric	Data management for remote sites Lina Hermiz Schneider Electric

4:00 pm	Final Remarks - Scott Woolridge , Vice President, Industry Schneider Electric, Australia Prize draw including LCD or plasma TV			
4:15 pm	Close			

Registration Form

Costs

- Until 12th April 2010 Early Bird Rate: \$895 plus GST
- Post 12th April 2010 rate: \$1050 plus GST
- Single Day rate: \$690 plus GST
- Group rate: \$850 plus GST per person (this fee is only applicable to groups of 3 or more individuals registering from the same company at the same time)

These Costs include

- Attendance to all conference sessions
- Conference Pack
- All Dinners, Lunch and Break Meals associated with the Conference
- Activity Cost on Thursday afternoon associated with the Schneider Electric Sailing Regatta

Please Note: these costs do not include your flights, accommodation, breakfast or activity fee associated with the Companion Program.

Cancellation Policy

Cancellation will be permitted up to 1 month of the first day of the conference (10th April 2010) after this date no refund will be available only transfer of registered attendee

To register either fill in this form and fax it back to (+61 2) 9851 2633 or go to <http://events.schneider-electric.com.au/Connects2010>

Conference Overview

11th - 14th May 2010 Sheraton on the Park, Sydney

161 Elizabeth Street Sydney 2000 Australia Phone (+61 2) 9286 6000

Schneider Electric Industry Business would like to invite you to register for the inaugural User Conference, Schneider Electric Connects. Continuing the tradition of the previous Citect User Conferences, the Connects event is designed for those with an interest in Automation technology, including SCADA, PLCs, Variable Speed Drives, MES, reporting and the services that complement and secure your technology investment.

The conference will allow users to make the most informed decisions about current and future automation technologies, whilst connecting and sharing experiences with numerous other industry professionals.

Focusing on key industry issues including SAFETY  PRODUCTIVITY IMPROVEMENT  PREFERRED IMPLEMENTATIONS  AND ENERGY EFFICIENCY , the forum will additionally serve as the launching platform for PlantStruxure™ – the eagerly awaited automation methodology from Schneider Electric.

PlantStruxure™ forms an integral part of Schneider Electric's solution backbone EcoStruxure™, which unites the company's unique expertise in power, datacentres, process & machines, building control, and physical security into a singular, compatible architecture, allowing customers to vastly improve efficiencies across multiple domains of their business.

The EcoStruxure™ architecture, SoCollaborative & SoMachine software suites will be further highlighted during the three-day event as part of Schneider Electric's simplified solution strategy.

In addition to the key focal points above and to assist attendees in recognising vital productivity and cost optimisation opportunities, the conference will also include:

- Experience Presentations – conducted by organisations currently utilising Schneider Electric technology in their applications including Suzlon, Hunter Water Corporation, Iluka Resources, Simplot, BHP Billiton Gemco, Sunstate Cement, Schweppes, Electro 80, RIO Tinto Iron Ore, SPC Ardmona, Wide Bay Water Corporation & Kellogs just to name a few
- Technology Exhibition – delivered to showcase solutions for the Food & Beverage, Water & Wastewater and Mining, Metals & Minerals industry streams across all Schneider Business and complimentary partners
- Plus, a favourite from the previous Citect conference: Technology Speed Dating, for quick tips and tricks about SCADA, Plant Controllers, Variable Speed Drives and Ampla. You will have the opportunity to choose the sessions of most interest to you.

Key Note Speaker

This year our Key note Speaker is Dr Nikki Williams, CEO NSW Minerals Council, who will discuss the effects of climate change on the mining industry.

Also joining us are speakers from Energy Efficiency Council of Australia, Rob Murray-Leach, CEO and Kate Carnell, CEO Australian Food and Grocery Council.

Conference Activities

On a light side we have plenty to break up the conference and make this experience truly one to remember. Including Cricketing Legend Max Walker who will be joining us for a few stories. This year we have also organised an afternoon on Sydney Harbour for the Schneider Electric Sailing Regatta. To kick off the event, dinner at the Sydney Opera House, with awards, prizes and a special guest to entertain us in this historic setting.

Companion Program

For those conference attendees who will be bringing their partners and families, they can choose from a series of activities that will be available to help them pass the time in Sydney. From a day trip to the Hunter Valley to High Tea at the Sheraton on the Park. The Companion Program will be open to all partners and families of conference attendees.

Dr Nikki Williams

Max Walker
